

PARAS PATIL

Pune, IN — www.linkedin.com/in/parascyber — paras615@gmail.com — +91-7498188204

SUMMARY

Cybersecurity Engineer with 4.5 years of experience with strong expertise in Application Security, Cloud Security, DevSecOps, and Penetration Testing across SaaS, FinTech, and Web3 environments. Proven success in reducing risk through VAPT, threat modeling, secure SDLC, CI/CD security automation, and compliance with OWASP, NIST, ISO 27001, PCI-DSS & GDPR. Adept at cross-functional collaboration, secure design reviews, and scaling security programs for hyper-growth organizations.

SKILLS

Security Domains: AppSec, API Security, Mobile Security, Network Security, Cloud Security, Web3 Security, Threat Modeling, Red Teaming, Compliance & Governance

Pentest & Security Tooling: Burp Suite, ZAP, Nessus, Acunetix, Qualys, Metasploit, Nmap, SQLMap, MobSF, Wireshark, Frida, IAM Review, WAF/Shield, CodeQL, SAST/DAST/IAST

SDLC & Automation: SAST, DAST, IAST, SCA, CI/CD Security Gates, Artifact Scanning, Dependency Checks

Programming/Automation: Python, JavaScript, Bash, HTML/CSS

Cloud & Infrastructure: AWS (IAM, WAF, CloudWatch, Shield), GCP Basics, Linux, Windows

Frameworks & Standards: OWASP ASVS, OWASP Top 10, STRIDE, MITRE ATT&CK, NIST CSF, CIS Benchmarks, PCI-DSS, ISO 27001, GDPR

Governance & Risk: CVE Tracking, Patch Governance, Audit Readiness, Risk Assessments, Vendor Reviews

Soft Skills: Problem Solving, Analytical Thinking, Technical Advisory, Cross-Team Collaboration, Security Enablement

CERTIFICATIONS

- AppSec Practitioner – The SecOps Group (Application Security)
- Cyber Warrior – HackingFlix (Penetration Testing)
- Cyber Security Expert – Grade 1 (Cybersecurity Fundamentals)
- ISO/IEC 27001 & ISO 9001 Associate (Information Security Management)
- Fortinet NSE1 (Network Security)
- Cisco Networking Labs (Network Fundamentals)
- Blended CyberSecurity – Tata STRIVE (Cybersecurity Essentials)

SECURITY DISCLOSURES

- Reported critical vulnerabilities via responsible disclosure to Reddit, Extramarks, Dhani, and Medplus Mart.
- Notable findings included authentication bypass, stored/reflected XSS, logic flaws, and broken session management.

LEADERSHIP

- Facilitated over 10 security-focused workshops across departments, resulting in a 25% reduction in misconfigurations.
- Organized monthly knowledge-sharing meetups, training 50+ team members on secure coding.
- Published 2 technical research papers and blogs, boosting internal security awareness by 30%.

EXPERIENCE

Byteosphere Software Pvt Ltd Pune, India
Senior Associate Software Engineer – Cybersecurity
Aug 2023 – Present

- Promoted for demonstrating technical leadership in **securing cryptocurrency platforms and SaaS environments**.
- Engineered **secure session management frameworks** using **encrypted split cookies, CSRF tokens, device/IP fingerprinting**, and **token rotation**.
- Conducted **VAPT** using **Burp Suite, Nessus**, and automated scripts, **reducing attack surface by 40%**.
- Developed **STRIDE** and **OWASP-ASVS-based threat models** for **Web3 applications**.
- **Automated CI/CD-integrated security checks** using **Python** and **AI-enhanced tools**.
- Spearheaded **AWS WAF** and **CloudWatch** alert rules deployment, **reducing Mean Time to Detect (MTTD) by 30%**.
- Delivered **secure code training**, technical briefings, and **threat analysis** to teams.

Innovor Systems Pvt Ltd Pune, India
Cybersecurity Tester May 2022 – Jul 2023

- Remediated **180+ vulnerabilities** across 5+ government applications, reducing exploitable risks by **55%**.
- Conducted **VAPT** with **Nessus** and **Burp Suite**, optimizing scans to cut false positives by **30%**.
- Identified insecure data flows in Android apps using **MobSF** and **Wireshark**.
- Facilitated 25+ security reviews, improving patch compliance **from 37% to 93% in 6 months**.

SISA Information Security Pune, India
Application Security Consultant Sep 2021 – Apr 2022

- Conducted 20+ **application penetration tests** aligned with **OWASP** and **PCI DSS**, achieving **75% client audit success**.
- Identified **75+ vulnerabilities**, improving remediation turnaround by **40%**.
- Developed custom scripts in **Python** to automate vulnerability scanning, saving 10+ hours weekly.

PUBLICATIONS

- *Transaction Fraud Detection Using Face Authentication and Invisible Virtual Keyboard*, IJRAR, Vol. 7, Issue 2, 2020
- *Advanced Security System Using Encrypted Communication*, IJERCSE, Vol. 3, Issue 12, 2016

EDUCATION

IIT Roorkee 2023 – 2025
PG Program in Cyber Security and Ethical Hacking (Part-Time)

Alard College of Engineering, Pune 2017 – 2021
Bachelor of Engineering (Computer Engineering)

MIT Polytechnic, Pune 2013 – 2017
Diploma in Computer Engineering
